

SMILE PROJECT GLOBAL

Spreading happiness. Creating impact. Connecting young people worldwide.

Smile Project Global is an international youth-led initiative that empowers young people to turn their willingness to help into real, positive action.

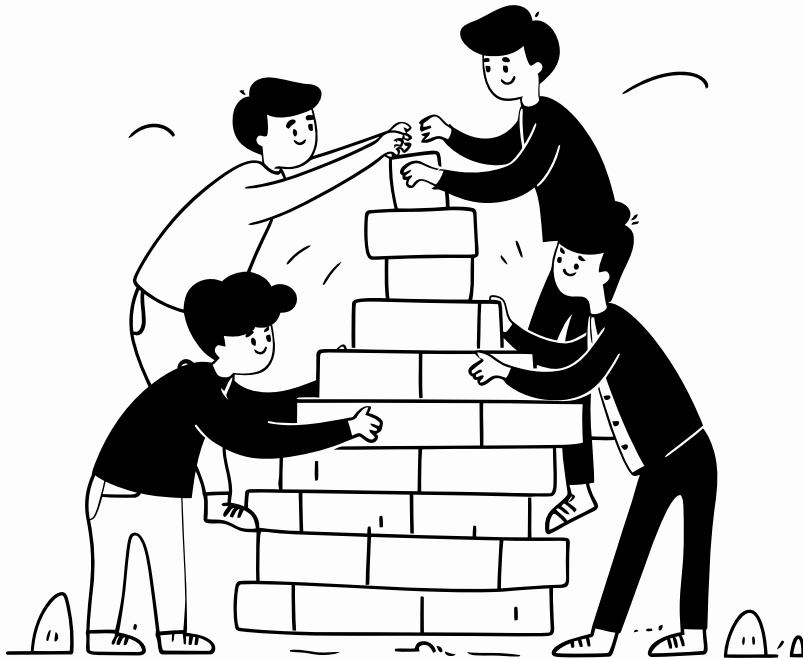

YOUTH-LED

COMMUNITY-DRIVEN

GLOBALLY CONNECTED

What is Smile Project?

Smile Project is an international youth-led initiative focused on spreading happiness and creating positive social impact through volunteering, community action and collaboration.

We bring together young people from different schools, cities and countries who share one simple idea: **you do not need to wait to start making a difference.**

Members are encouraged to take action within their own communities, participate in volunteering opportunities, develop their own initiatives and inspire others to do the same.

Small actions. Real people. Global impact.

Our Mission

Accessible

Make volunteering and social impact more accessible and engaging for young people around the world.

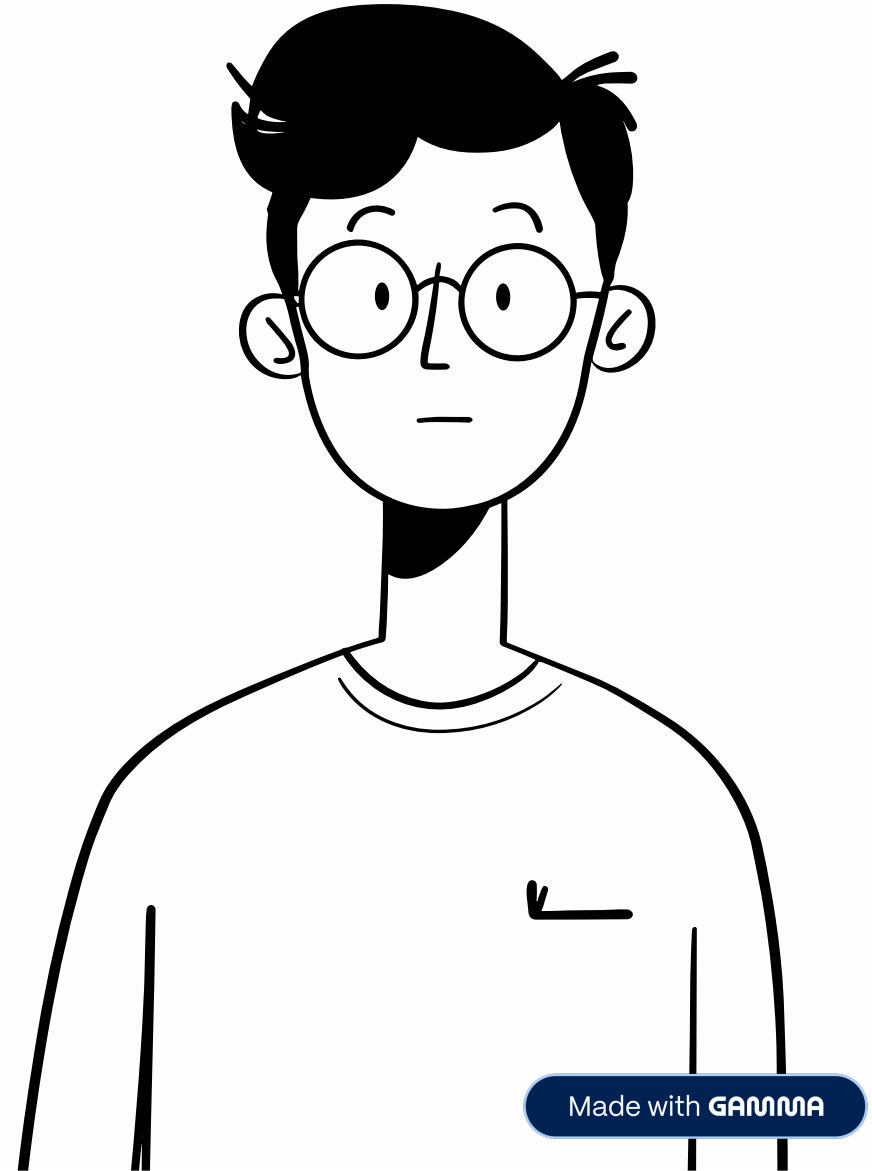

Everyday

Create a generation that sees helping others not as an occasional activity, but as part of everyday life.

Connected

Provide the community, support and international network needed to transform ideas into action.

Our goal is simple: help more young people help more people.

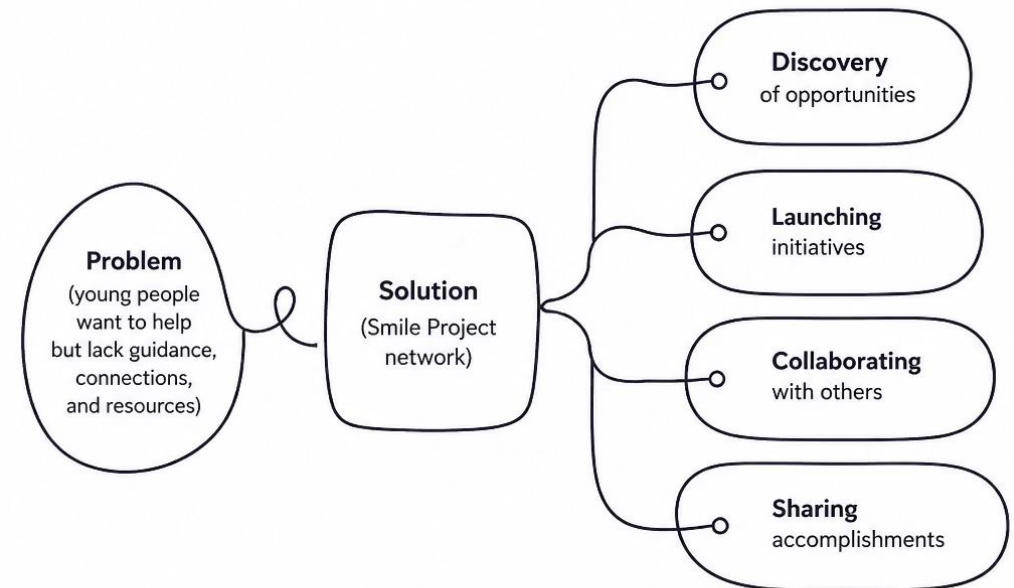

Turning Good Intentions Into Action

Millions of young people want to contribute to their communities, but getting started is not always easy.

Opportunities can be difficult to find. Young volunteers may lack guidance, connections or the resources to launch their own projects. At the same time, many incredible local actions remain isolated and invisible.

Smile Project connects these pieces.

We create a network where young people can discover opportunities, launch initiatives, collaborate with others and share what they accomplish.

Instead of asking: "**What difference can I make?**" — We want young people to ask: "**What can I start today?**"

From One Action to a Global Community

Every action may start locally, but together they become part of something much larger. Local action. Global network.

Impact Can Take Many Forms

There is no single way to create positive change. Smile Project members and teams can participate in:

Volunteering

Supporting charities, NGOs and community organisations.

Community Projects

Creating initiatives that respond to local needs.

Social Campaigns

Using social media to spread positive messages and raise awareness.

School Initiatives

Bringing volunteering and social impact into schools and student communities.

Fundraising & Support

Helping organisations and causes access resources and visibility.

Independent Actions

Encouraging individuals to identify opportunities to help within their own communities.

Smile Project provides the network. Our members create the impact.

Local Communities. International Connections.

Smile Project is built around a simple principle:

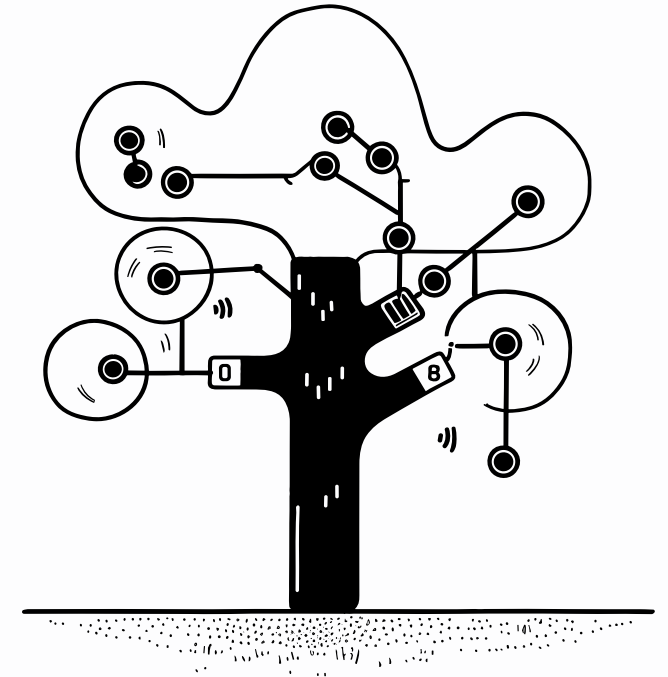

Impact should be local, but collaboration can be global.

Members operate within their own communities while belonging to an international network of young people with similar ambitions.

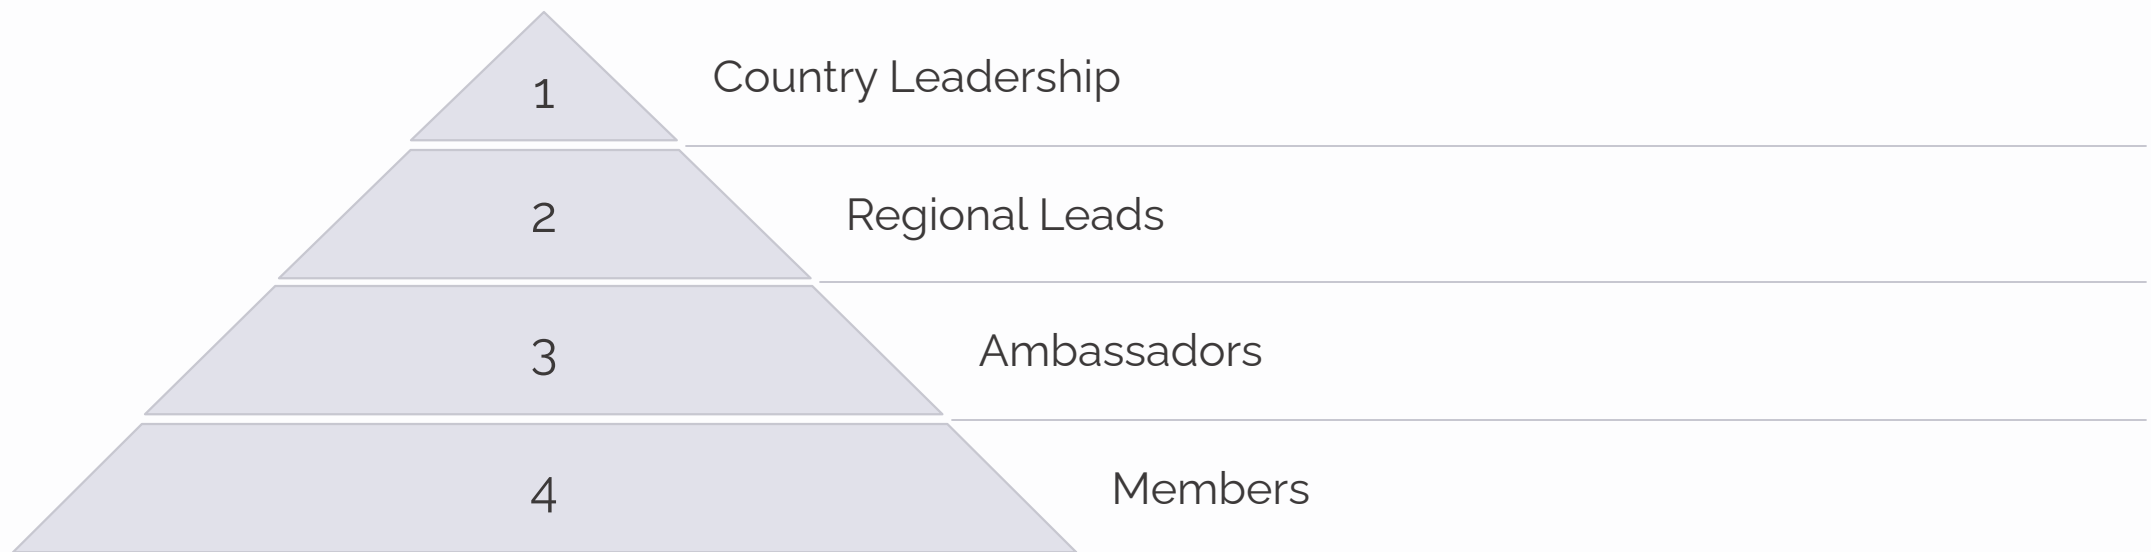

A student in Madrid can exchange ideas with someone in London, New York, Milan or anywhere else in the world.

Projects that work in one community can inspire actions in another.

Through this network, Smile Project aims to create more than a volunteering organisation. We are building a **global community of young people** who want to leave the places around them better than they found them.

A Community Designed to Grow

Members

The foundation of Smile Project. Participate in actions, volunteer and contribute to their communities.

Ambassadors

Active members who represent Smile Project, encourage participation and help coordinate members and initiatives.

Regional Leads

Young leaders responsible for developing and coordinating Smile Project communities within specific cities or regions.

Country Leadership

Coordinates national growth, regional teams, partnerships and the development of Smile Project within each country.

Alongside this structure, **Partners** – including schools, organisations and institutions – collaborate with Smile Project to create opportunities and expand our impact.

PARTICIPATE

LEAD

BUILD

More Than Volunteering

Joining Smile Project means becoming part of an international community built around action. Members can:

- Create real impact
Contribute directly to their communities and causes they care about.
- Develop leadership
Take responsibility for projects, teams and initiatives.
- Build an international network
Meet ambitious young people from different countries and backgrounds.
- Launch their own ideas
Turn an idea for positive change into a real project with community support.
- Gain meaningful experience
Develop communication, organisation, teamwork and project-management skills through real action.

❏ But above everything else: Smile Project is an opportunity to use your time, ideas and energy to make someone else's day – or life – a little better.

One Person Can Create a Smile. Thousands Can Create a Movement.

Smile Project started from a simple belief: Helping others should be easy to start, exciting to share and powerful enough to inspire someone else to do the same.

BECOME A MEMBER

Take action and join the community.

BECOME AN AMBASSADOR

Represent Smile Project and inspire others.

BUILD A COMMUNITY

Bring Smile Project to your city, school or country.

BECOME A PARTNER

Help us create more opportunities for young people to make an impact.

SMILE PROJECT GLOBAL

Spread happiness. Take action. Inspire others.
